What have we learnt in C++?

- Program Structure
- Data types
- Input and output
- Variables and Constants
- Operators
- Functions
- Loop/iteration constructs
- Selection constructs

What have we learnt in C++?

- Files
- Arrays
- cstring && string

Advise for the midterm

- Write a C++ program vs. write a c++ function vs. a c++ code fragment
- Which questions to start with?

Sample Questions
